

**HELPING TURN DREAMS  
INTO REALITY**

# Welcome

We've come a long way since wide-eyed Frederick Henry Brundle arrived in London in 1889 with a £500 loan from his father and a dream of making it big, opening premises at 14 Paper Street, EC1. His attention to detail, careful product selection and quality made him stand out and 130 years on those hallmarks remain at the heart of the business.

Today, the name F.H. Brundle is not only synonymous with the same values, quality and competitive prices first established but through its design office it is able to offer brands and products that are innovative, stylish and exclusive to F.H. Brundle.

Not only is F.H. Brundle the UK's leading stockist of welded wire mesh, wrought iron components, gate hardware and steel but it also offers the widest range of handrail & balustrade, decking & flooring, railings & gates and fencing from stock in the UK.

Our branch network is there to offer help and advice and with delivery nationally we can supply what you want, where you want it, when you need it.

We look forward to being of service.

Yours sincerely,

**Michael Brundle**

## Rinato™ Composite Deck Boards

These boards are easy to install and look fantastic. As well as being environmentally friendly, all our decking is virtually maintenance free, incredibly durable and will remain so for years to come. For peace of mind Rinato deck boards also come with a full UK backed warranty.

## Rinato™ Natural

Suitable for a variety of outdoor uses. Rinato Natural features a 360 degree wrap around Polymer Capstock shield that encapsulates the board and gives it year-round protection against the elements and protects from excessive UV fading. These hollow core boards have an enhanced woodgrain one side, flat sanded on the other and starter & fascia boards.

## Rinato™ Victoria

Thanks to the 'M' design on the underside, Victoria uses less composite material making the board lighter and more economic, the perfect cost-friendly choice for every garden, balcony or patio. Single-sided boards with a choice of natural woodgrain or traditional grooved effect, and starter & fascia boards.

## Rinato™ Classic

Top quality residential and commercial boards, are ideal for areas of high footfall or weight and are also suitable for a range of outdoor uses, such as walkways or any commercial application. These solid double-sided deck boards have a natural looking woodgrain one side and traditional grooved effect on the other, plus a fascia board option. As the colour runs through the board, they can be routed or sanded to any shape.

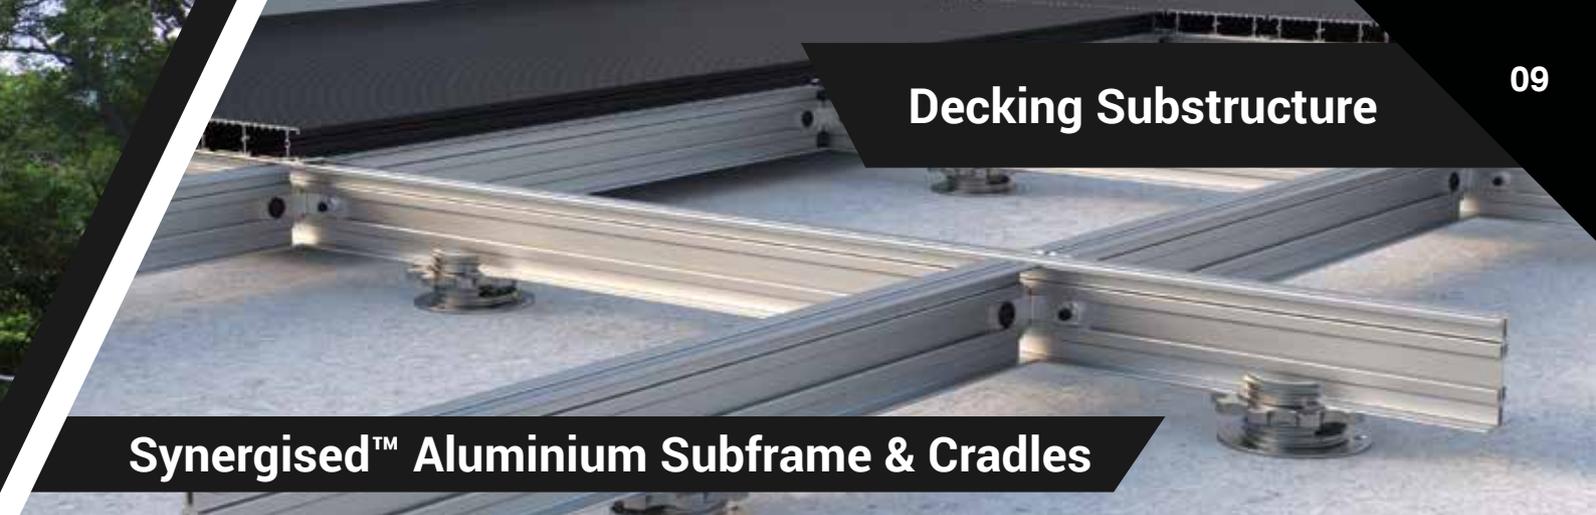

## Synergised™ Aluminium Deck Boards

Tested by the UK's leading fire test centre to EN 13823, EN 13501 and EN ISO 1716. All elements of the Synergised system achieve Euroclass Classifications of A1 and A2fl-s1. Designed for balconies, roof terraces and all other decking applications. Our boards are manufactured from structural grade 6063 T6 aluminium and have a 100 micron Qualicoat™ premium powder coating.

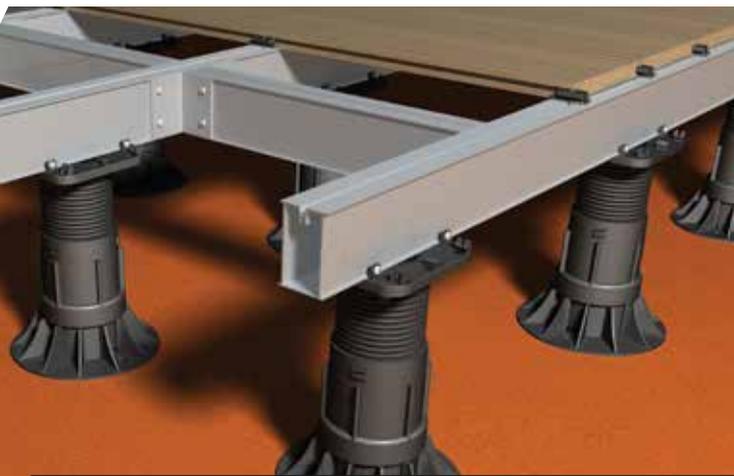

## Decking Substructure

09

**Synergised™ Aluminium Subframe & Cradles**

## Hanit® Ultra Profiles

**RynoDeck™ Support Systems**

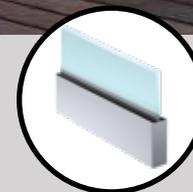

All designed for ease of use, our range of decking substructure components work well together and can be used with a wide range of deck boards.

# Pro-Railing® Frameless Glass Balustrade with top rail

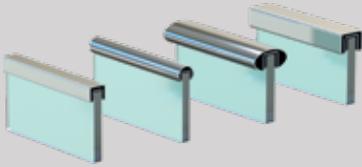

We complete the range with a selection of top rails and edge protection.

To make the most of open views we have an extensive range of frameless glass balustrade systems suitable for most locations. These include systems for both domestic and commercial locations. Base and side-fix options are available, plus we also stock glass panels from 12 - 21.5mm thickness to finish your project.

Pro-Lite  
Wedge-Loc™ Slim  
PanelGrip®  
Tilt-loc™  
Posi-Glaze  
Mega-Grip 3kN  
OnLevel

Square • Round • Oval • Rectangular

## Pro-Railing® Frameless Glass Balustrade without top rail

If a handrail is not being used, we recommend laminated glass panels with edge protection.

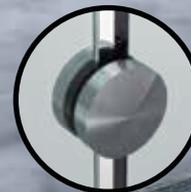

# Pro-Railing® Glass Stand-Off Adaptors

Glass stand-off adaptors are stylish and simple to install. They are available in a satin or mirror finish, stainless steel Grade 304 and 316, Duplex 2205 or Zamac. We also stock glass panels from 10 - 21.5mm thickness.

## Pro-Railing® Glass Stiffeners and Connectors

A slimmer frameless panel support system to suit our 10 - 21.5mm stocked glass panels. Available in a BZP and PPC matt black finish or satin polish

# Pro-Railing® Pre-Assembled Post System

## Timeless (with handrail)

A range of round or square posts available in stainless steel Grade 304 and 316 with a satin or mirror finish, and a choice of sizes. We also stock a range of 10mm thick glass panels.

To make life easy for installers our pre-assembled posts come with the glass clamps and bases already fitted.

We offer a choice of handrail saddles so you can choose to suit your requirements.

Bolt-down, concrete-in and side-fix options are available.

# Pro-Railing® Pre-Assembled Post System Contemplation (without handrail)

Our pre-assembled post system is designed to make life easier with a variety of spigots to meet most needs. Suitable for use with drops under 600mm without handrails. Bolt-down, concrete-in and side-fix options are available. We also stock a range of 10mm thick glass panels.

**Pro-Railing®**  
**Pre-Assembled Post System**  
Square - Timeless and Contemplation

For a contemporary style, our stainless steel Grade 316 square pre-assembled post system not only looks great, but also provides both bolt-down or side-fix options.

# Pro-Railing® Glass Spigot Systems

Made from stainless steel Grade 316 or Duplex 2205 ultra marine grade stainless steel, these spigots are economical to use and do not require holes in the glass. In a beautiful satin finish or black powder coated, they can be used with our standard stocked 10 - 21.5mm glass panels. Available in round or square versions. Both side and base-fix available.

## Pro-Railing® Spig-Lite Pro

Spig-Lite Pro can be bolted directly into the substrate without the need for a channel, ensuring clean lines and greater glass visibility.

Our channel free system allows a 32mm gap between the substrate and glass enabling free dispersal of water.

They can be used with our standard stocked glass panels.

## Pro-Railing® Tilt-Loc™

Our Tilt-Loc system has base and side-fix options (shown) and is made from Duplex 2205 ultra marine grade stainless steel with a satin finish. Tilt-Loc spigots can be easily adjusted by hand from one side. Tilt-Loc doesn't need holes in the glass and can be used with our standard stocked 12 - 21.5mm glass panels.

## Pro-Railing® Tilt-Loc™ Edge

Tilt-Loc edge completes this very versatile range. Simple to fit, easy to adjust, Tilt-Loc edge not only looks great but is very cost effective.

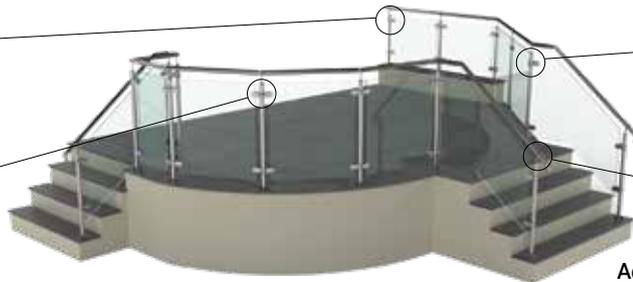

# Pro-Railing® Sleeve-Fit Glass Clamp Brackets

End bracket

Mid bracket

Adjustable corner bracket

Adjustable handrail support bracket

This unique system offers a superb solution to slopes, curves and stairs, allowing balustrades to change angle easily and without drilling the posts. It is simple, versatile and useful in many situations.

## Marano<sup>®</sup> Edge (square) System with a rectangular handrail

**MARANO<sup>®</sup>**  
LIGHT • STYLE • VISION

Our superb aluminium square post system is sleek and modern in appearance, light to handle and easily maintained. We offer a choice of oval or rectangular handrails. Depending on location, Marano can also be used without handrail.

# Marano® Curve (round) System with an oval handrail

**MARANO®**  
LIGHT · STYLE · VISION

Beautiful, modern, and light to handle, we think this round post system will be a winner for many situations. Marano is simple to install. We offer a choice of oval or rectangular handrails. Depending on location, Marano can also be used without handrail.

Choose the  
right height  
for you!

**Marano® System**  
without handrail

To give uninterrupted views, in many situations, Marano Edge and Curve posts can also be used with a handrail.

# Marano<sup>®</sup> Contemporary System with glass panels

Marano contemporary is also available with side-fix posts and fascia mount brackets.

**MARANO<sup>®</sup>**  
LIGHT • STYLE • VISION

Our new range of modern Marano contemporary balustrades are made from aluminium and are powder coated in a choice of three colours: black gloss, black sand and white gloss. This is also available in a mill/raw finish. A great solution that's easy to install and lightweight.

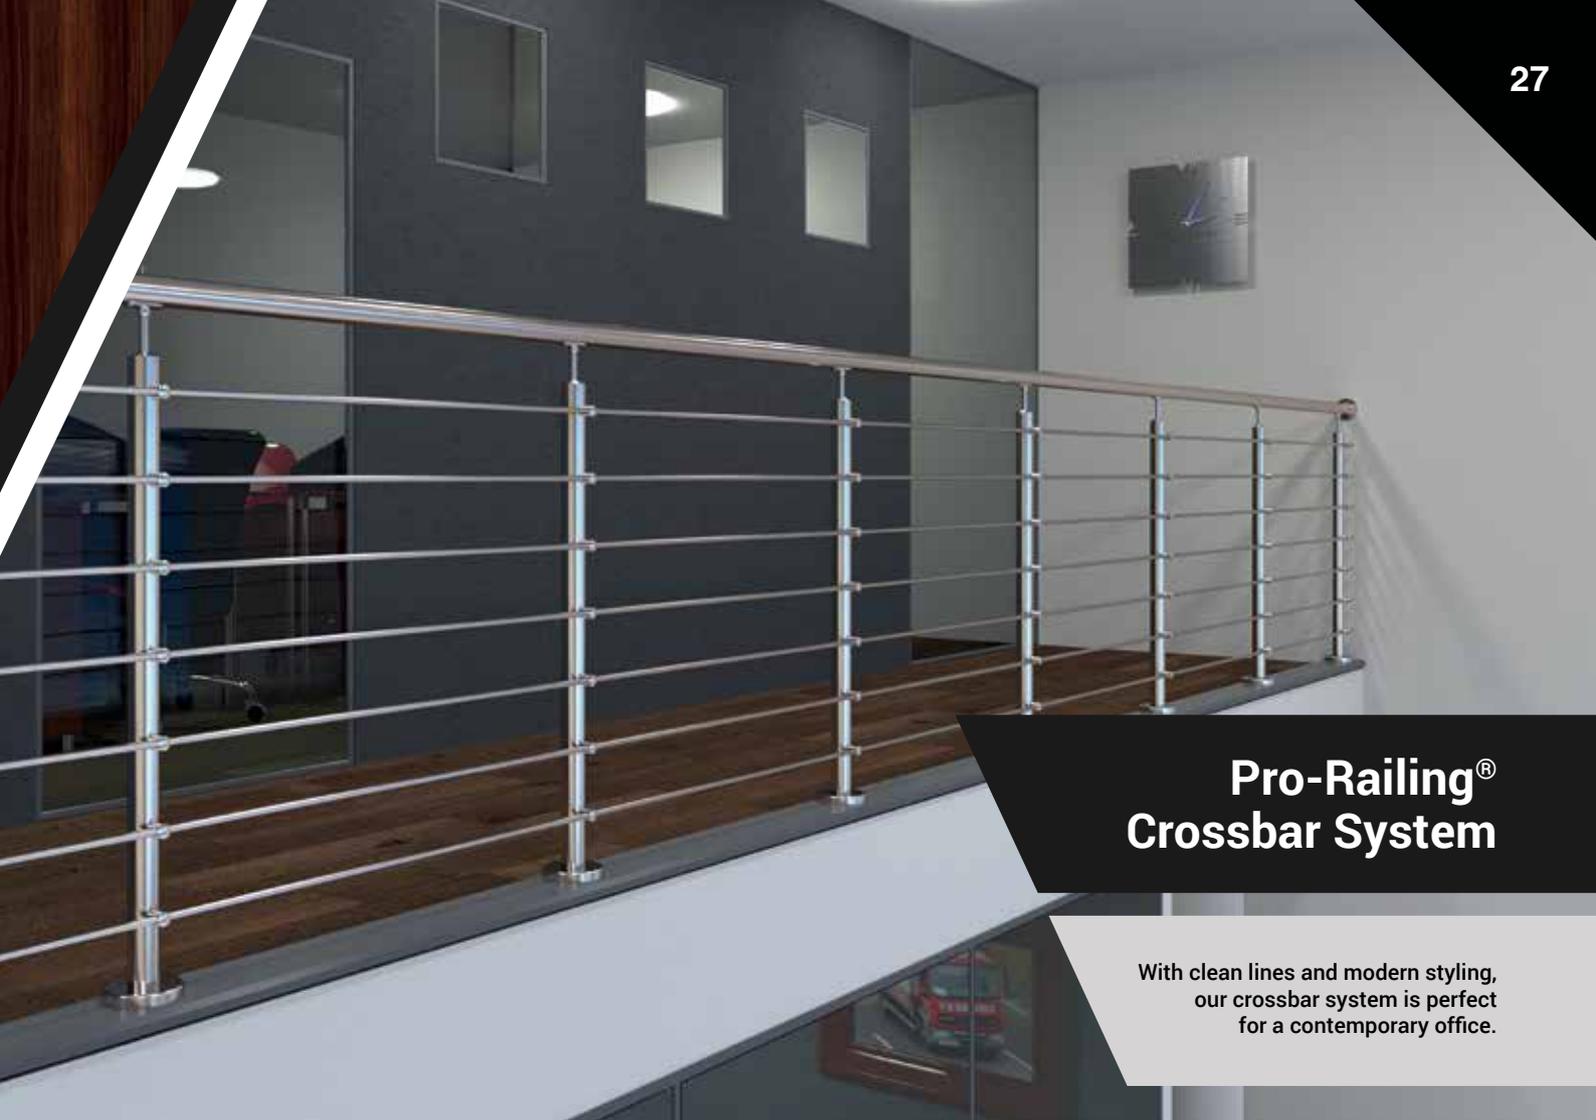

**Marano® Contemporary System**  
with glass slats

# Pro-Railing® Wire Rope System

Commercial  
solutions – Ideal  
for offices

Our stainless steel  $\varnothing 3$  and 6mm wire rope system is a cost effective alternative to our crossbar system. This system is ideal for many commercial premises, but are not recommended for domestic locations with a drop of 600mm or more at one side.

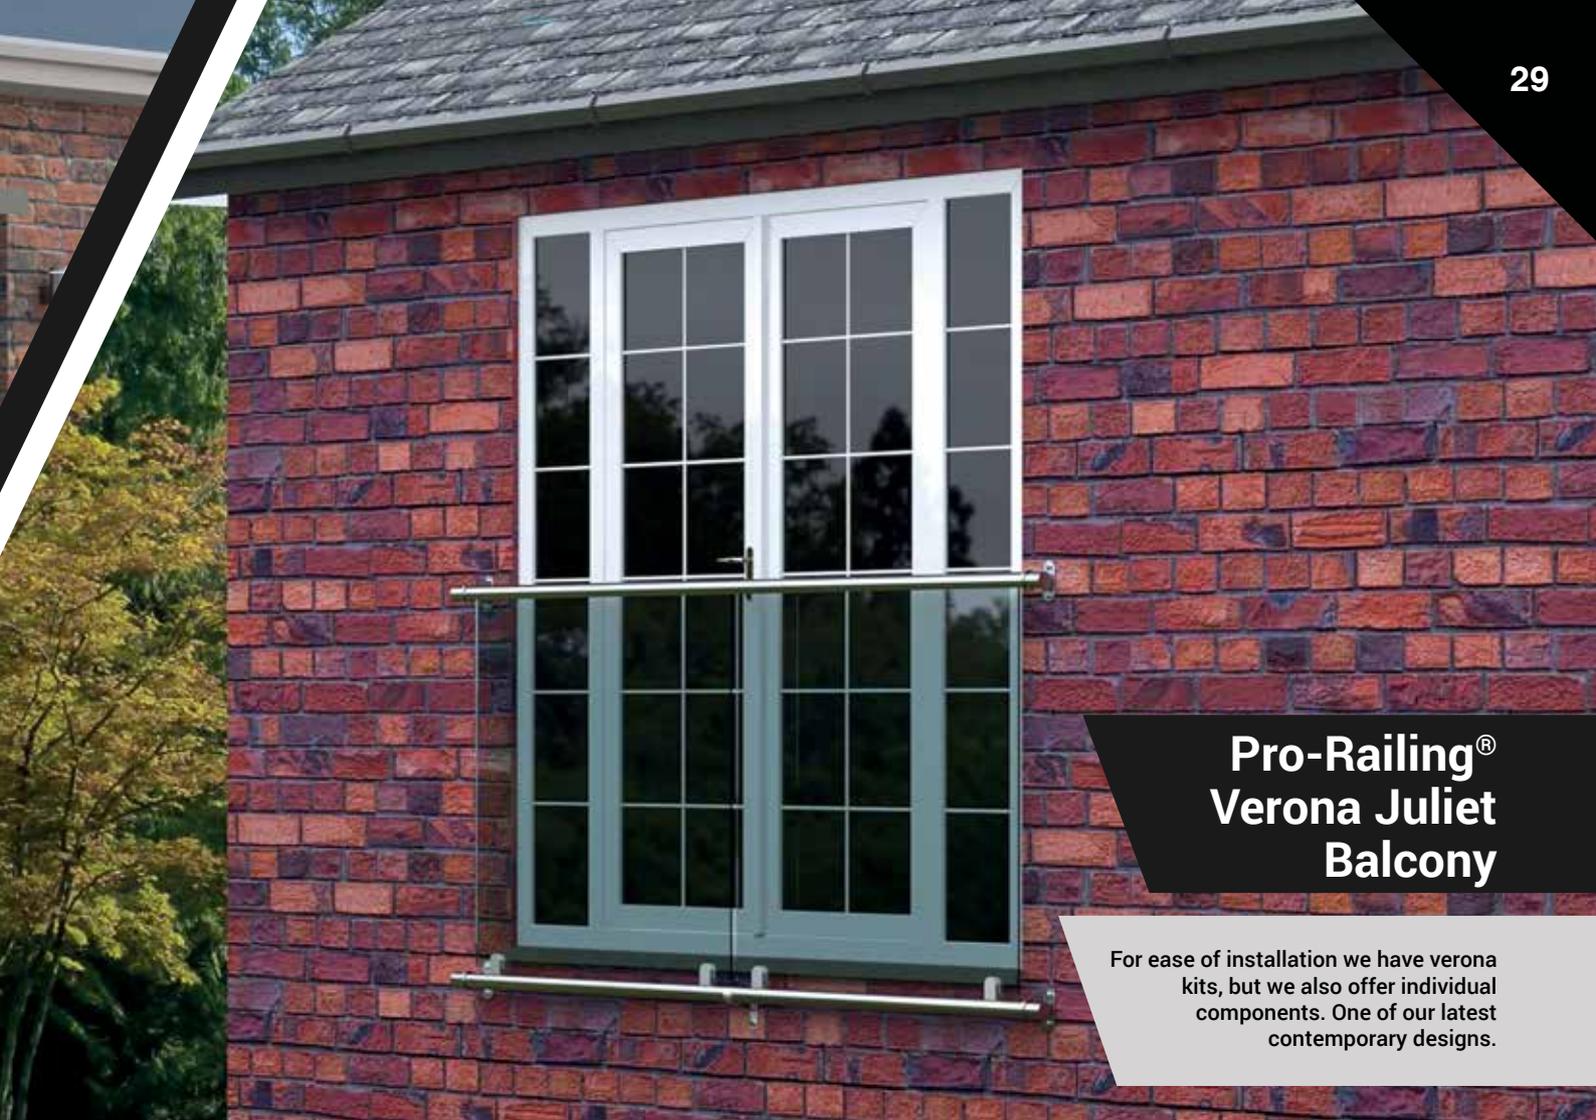

## Pro-Railing® Crossbar System

With clean lines and modern styling,  
our crossbar system is perfect  
for a contemporary office.

## Pro-Railing® Fully Frameless Juliet Balcony

For fabulous, uninterrupted views, our fully frameless balcony is the ultimate design. This is also available with a top frame only or with top and bottom frames. Available in an ultra-modern satin finish, this duplex range is designed for our standard 12 - 21.5mm glass panels, which will be 80mm from the wall.

## Pro-Railing® Verona Juliet Balcony

For ease of installation we have verona kits, but we also offer individual components. One of our latest contemporary designs.

## Pro-Railing® Elegance Juliet

With our elegance balconies, you have a choice of top and bottom rails, top rail only, or fully frameless options. Designed for 12 - 21.5mm glass, these balconies come in a satin finish, a choice of bracket styles and clear or coloured glass – the choice is yours. No drilling of the glass required.

## Pro-Railing® Elegance Romeo

## Fortitude™ Traditional Juliet Balcony

Our Fortitude traditional juliet balcony is made of robust zinc plated steel with a UV resistant powder coated black finish for that contemporary look. Available for widths up to 2m.

# Glass

If you require bespoke sizes, holes or shapes in different colours including opaque, we offer a range of made to order laminated and toughened glass panels up to 33mm thick at very competitive prices.

Our standard stocked glass panels have polished edges and dubbed corners. Available in 10 - 15mm toughened monolithic clear float glass and 17.5 & 21.5mm PVB toughened laminated glass.

With our glass gate fittings you are able to create beautiful fences and gates from our standard 12mm glass panels and spigots.

## Pro-Railing® Stainless Steel Handrails

With our extensive range of component parts, our handrails are extremely versatile and can fit most situations. Corners or changes of angles are easily incorporated with our carefully designed stainless steel parts. We have parts for both internal and external locations. We also have luxurious wooden options for both internal and external use.

## Pro-Railing® Wooden Handrail Systems

We have softwood and hardwood handrails for both internal and external use.  
Each has four options.

*Strong, simple and versatile—make life easy!*

Posts are available in bolt-down, concrete-in and side-fix with either a black sand or white gloss finish

Post caps easily slide on top of the posts

Raking panels adjust to maximum 40°

Posts include a two part cover cap

Corner brackets adjust to 120°

Stair bracket can adjust to 60° up or down and angle adaptor can adjust to 40°

Fortitude can be fixed to steel or wooden posts and brick walls. To make life easy, the raking panels for steps adjust to different angles. Available in black sand or white gloss finish.

**Fortitude™**  
**Steel Railings**

**Fortitude™ Steel Railings**  
with circles

Stylish railing panels for that special effect.

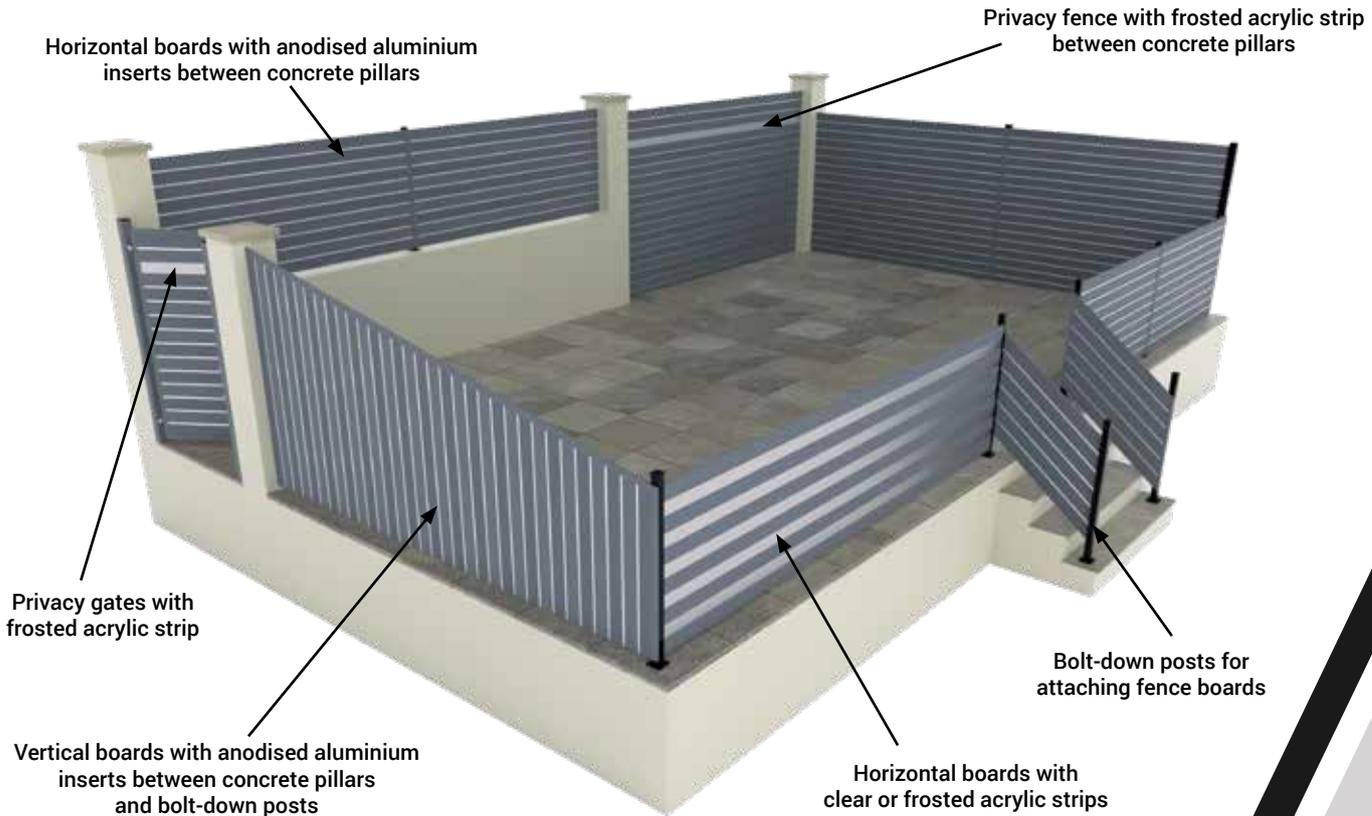

**Marano® Simplicity System**  
aluminium railings and gates

*Simplicity*  
make life easy...

Exceptional value and  
low maintenance.

# Aluminium Fencing

the design options are endless

## Marano® Breeze

Breeze is our easy to install slatted kit for 1.2 and 1.8m fence heights and 2.35m width. Its discrete fixing system gives you the perfect finish.

## Marano<sup>®</sup> Convex

Our profiled convex fencing slats are available in two contemporary colours, golden oak wood effect and anthracite. These easy to install convex slats can be incorporated into steel gate frames and fixed to the external face of any supporting post allowing you to create a fence that will last for years to come.

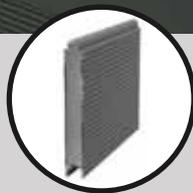

## Marano® Stripe

These double-sided boards have one side smooth and the other grooved, allowing you to alternate the faces to produce different effects. Their tongue and groove design makes them quick and easy to assemble.

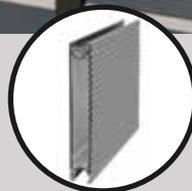

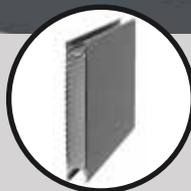

Available in two contemporary colours, golden oak wood effect and anthracite, plus a mill/raw finish to powder coat to your choice of colour.

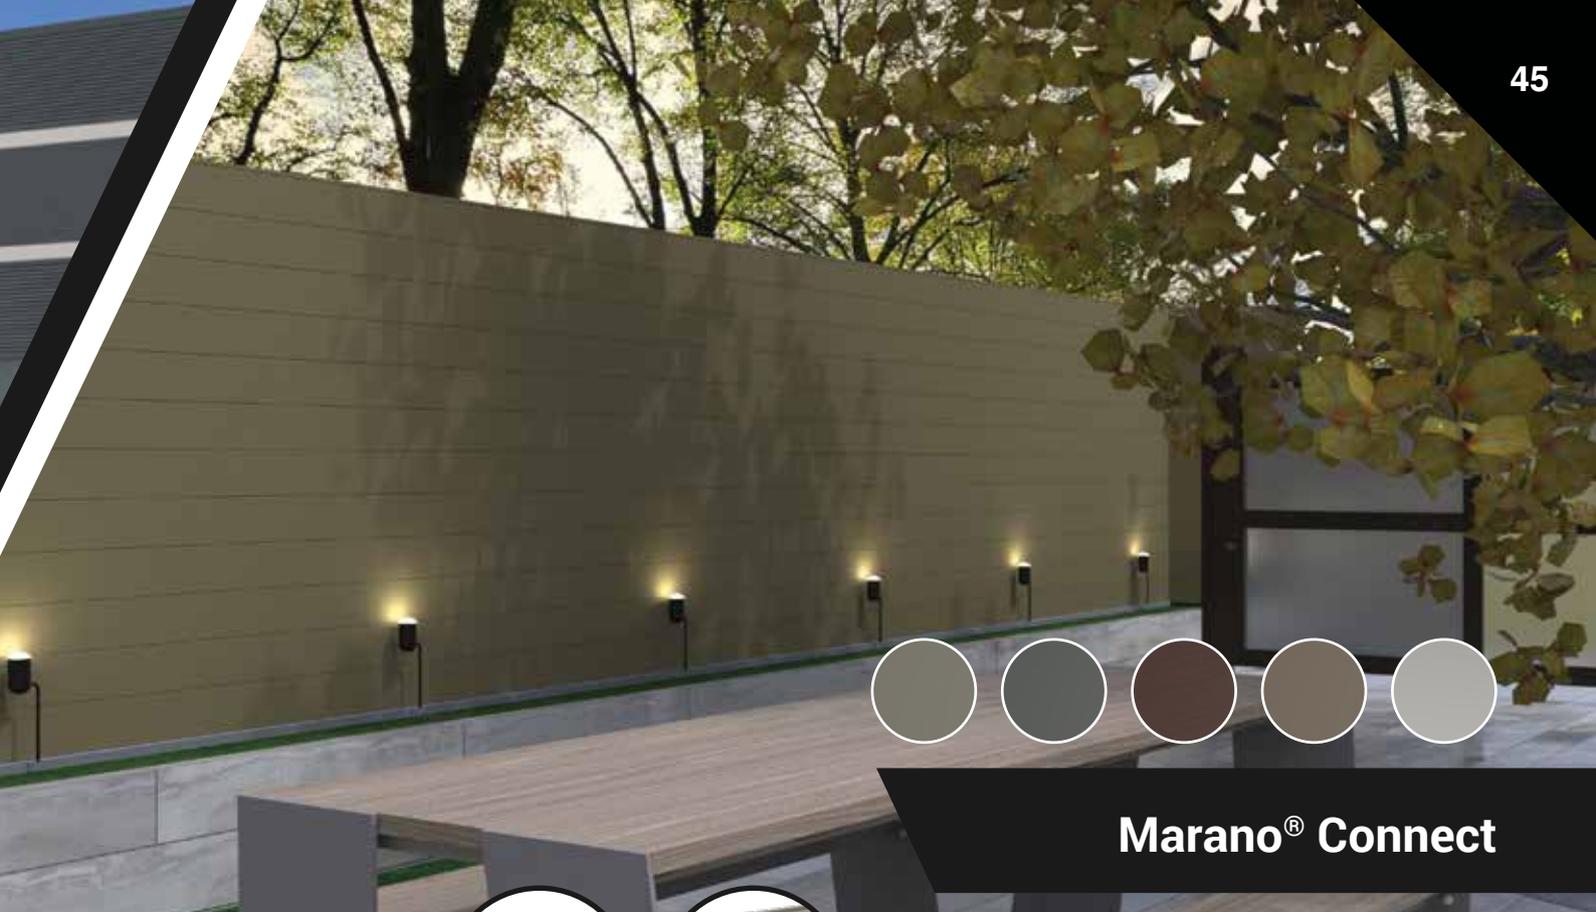

## Marano® Elements

Our most versatile system yet. You can create unique styles with our double-sided boards, alternating between smooth one side and grooved the other, with a choice of acrylic infills and anodised aluminium strips. Available in two contemporary colours, golden oak wood effect and anthracite.

## Marano<sup>®</sup> Connect

Create a perfect privacy fence by mounting these aluminium boards to the face of your fence posts. These boards have the same texture on both sides and easily slot together. Available in light sage, anthracite, oak wood effect, serengeti sand and a mill/raw finish to powder coat to your choice of colour.

## Marano® Parallel

The profile of this system allows you to create a stunning fence design with gaps between boards. The aluminium boards have the same texture on both sides and fit easily to the face of your posts. Available in light sage, anthracite, oak wood effect, serengeti sand and a mill/raw finish to powder coat to your choice of colour.

## Marano® Slimline Post System

A revolutionary new fence post, which can be used with all our Marano fence boards except Breeze. It's durable, lightweight and quick to install. Posts can easily be cut to suit lower fence heights and come in concrete-in or bolt-down options. Available in galvanised or anthracite finish.

## Rinato™ Composite Fence & Gate Boards

Our Rinato Composite fencing system looks amazing and is both easy to use and cost effective. It will also enhance any garden and create a contemporary focal point. This versatile recycled composite system is an eco-friendly product made from combining waste wood particles and thermoplastic resin.

## Rinato™ Polymer Fence & Gate Boards

Experience the beauty of wood with the benefits of Polymer. A stunning high-quality range of boards with the choice of a smooth or enhanced woodgrain finish. These boards are long lasting, low maintenance and perfect for use as privacy gate infills or fence panels.

## Steel

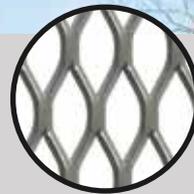

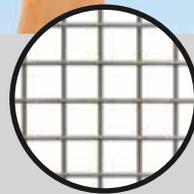

Steel for the construction or fabrication of anything from gates, railing and fencing to steel structures. If you need it delivered in lengths or cut to size, it's no problem.

## Mesh

Welded, Expanded, Woven & Perf

The UK's leading stockist of welded wire mesh, expanded metal and woven wire mesh in the widest range of specifications to meet your requirements. We also offer a range of mesh clips second to none.

# Wrought Iron Components

We have the largest range of wrought iron components in the UK to help design and create gates, railings or decorative ironwork to the highest quality. Add that finishing touch with our range of Vinylast paints.

## Cantilever and Gate Hardware

If you want your gates to swing, slide, lock, close manually or automatically, you will find a solution in our gate hardware range.

## Gate Automation

CAME gate automation equipment for both residential and commercial use. We also offer intercoms, safety and activation accessories.

# Tube Clamps

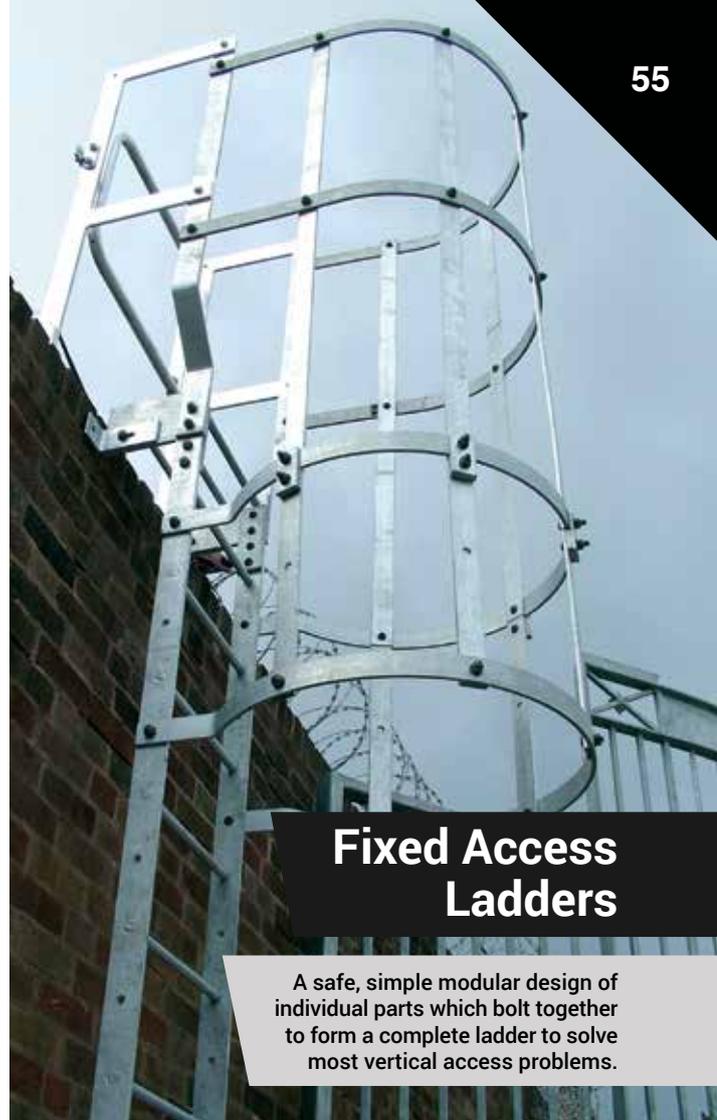

No welding, bending, threading or special skills, requiring just an Allen key or ratchet key to tighten grub screws and join galvanised tube in a matter of seconds to create handrails, guardrails and safety rails.

## Handrail Standards

A comprehensive range of tubular handrail standards.

## Fixed Access Ladders

A safe, simple modular design of individual parts which bolt together to form a complete ladder to solve most vertical access problems.

## Mesh Fencing and Gates

Whether high or low-level security is required, mesh panel fencing offers a system with a high degree of resistance to impact and vandalism. Systems to suit all types of perimeter security including schools, factories and sports areas. We are Betafence's official UK stockist.

## Palisade Fencing and Gates

Palisade fencing offers the ultimate in security, is easy to assemble and once assembled, offers a fencing system that is robust, long lasting and a formidable deterrent against crime.

Also available in Glass Reinforced Plastic (GRP) as a non-conductive metal free solution.

Where space is limited we also offer 4 and 6m track & cantilever gates.

# Crash Barrier

Protect people, property and plant installation from the dangers of impact by vehicles.

A large, ornate stone building with many chimneys and a black metal fence in the foreground. The building has a complex facade with multiple windows and a prominent entrance. The fence is made of black metal posts and rails, running across a green lawn. In the background, a modern high-rise building is visible under a cloudy sky.

## Fortitude™ Fencing and Gates

Estate

Increasingly popular in residential developments as a quick and economical fencing solution. Also ideal for use as continuous boundary fence in paddocks and parkland. Available with a galvanised or polyester powder coated black RAL 9005 finish with concrete-in and bolt-down options.

# Fortitude™ Fencing and Gates

Our ready-to-install range of fencing and gates are made from steel and built to last. Six great designs including ROSPA bow top railings where extra safety is required.

ROSPA Bow Top

Forest

Sphere Top

Fleur De Lis

Vertical Bar

Wall Top Railings

We have now introduced a range of Fortitude wall top fencing which is available in a concrete-in or bolt-down option.

# Zenturo® Super Gabion Fencing

From a closed partition to a garden feature, Zenturo® Super is versatile, easy to install and can be configured in many different ways to offer both privacy and security, with a combination of strength and natural beauty the panels can be filled with a variety of natural materials that will allow you to build walls and boundaries all in a contemporary anthracite.

## Gabions

A natural solution for building retaining walls, create structure in a garden or even seating. Fill with materials such as stone, concrete, sand or even soil to grow plants.

# Glass Reinforced Plastic (GRP)

Glass Reinforced Plastic (GRP) is a great non-slip and corrosion resistant solution for floors, palisade fencing, handrailing, stair treads and walkways or areas subject to being damp or wet.

Grating

Flooring

Tread Covers & Nosing

Flat Sheet

Posts & Mesh Infills

Fittings

## Durbar

The raised patterns are non-slip with a self-draining surface which is easy to clean, reducing corrosion and providing durability. Applications include stairs and walkways, containers, offshore and shipbuilding. We also stock aluminium alloy tread plate in a wide range of sizes.

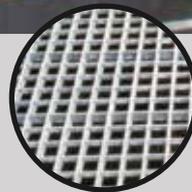

# Open Steel Flooring

65

A comprehensive range of grating and anti-slip planking that provides solutions for the widest range of applications including walkways, stairs, gangways and storage floors.

## Sliding Door Gear

To suit applications ranging from small domestic and commercial doors to industrial and agricultural doors weighing from 75 to 500kg. We also offer a light range for internal doors weighing up to 90kg.

Site Gates
